Reports today (1/17/08) claim social networking website Facebook is considering setting up its European base in Ireland.

The Minister for Enterprise, Trade & Employment Micheál Martin met with company executives during a visit to California last October, the *Irish Times* has reported.

In the US, Facebook is now more popular than MySpace and it is the most popular social networking site in the UK.

Last October, Microsoft paid €165m for a 1.6% stake in Facebook, which values the site at around €10bn.

Not bad for a 23 year old!! (Mark Zuckerberg was interviewed on *60 Minutes* last Sunday: [story](#), [video](#))
